

Password Requirements

All employee passwords must be at least 12 characters long and include a mix of uppercase letters, lowercase letters, numbers, and symbols. Passwords must be rotated every 90 days.

Access Control

Access to production systems requires multi-factor authentication. Access is granted on a least-privilege basis and is reviewed quarterly by the security team.

Incident Response

Security incidents must be reported to the security team within 1 hour of discovery. The incident response team will triage and classify all reported incidents within 4 hours.

Data Retention

Customer data is retained for 7 years after account closure to meet regulatory requirements, then securely deleted. System backup logs are retained for 90 days.
